Research and teaching statement

As a professional with 24 years of experience in Automation and Data Science my purpose is to help companies to fully leverage the opportunities of technology to improve their processes. I received my BS degree in 1994 from University of Metz, France, and PhD degree in 2011 from Simon Bolivar University, Venezuela, graduating both with honors. I have published 27 peer-reviewed articles, receiving in 2010 the IEEE Computational Intelligence Best Paper Award. I have been associated with universities in Venezuela, Mexico, USA, China and India. Recently I also received the Best Paper Award during the IEEE "International Conference on Recent Developments in Control, Automation and Power Engineering", New Delhi, 2019.

In my work, I try to strike a balance between the generation of new theoretical results and application to solve practical problems. In 2015, with Dr. Michael Pecht, University of Maryland, in USA, I worked on Machine Learning applications to Prognostics and Predictive Maintenance.

I have taught courses in both undergraduate and graduate levels, including: Automation, Control Systems Theory (classic and advanced), Modeling and Simulation, Robust, Optimal and Predictive Control. I am enthusiastic about using innovative teaching strategies like e-Learning and Project Based Learning.

Since August 2018, I am Professor at JK LakshmiPat University, India, currently working on Machine Learning applications to IoT and remote sensing data analysis.

EDUCATION

- 2011** **PhD in Science**
Simon Bolivar University, Venezuela
- 1996** **BS in Industrial Systems Engineering**
University of Metz, France

ACADEMIC APPOINTMENTS

- 2018** **Professor**
Institute of Engineering & Technology. JK Lakshmipat University. India.
- 2017** **Visiting Professor**
Wenzhou University, China.
- 2015** **Visiting Professor**
Center for Advanced Life Cycle Engineering. University of Maryland. USA.
- 2013 – 2018** **Professor**
Simon Bolivar University. Venezuela
- 2008 – 2013** **Associate Professor**
Simon Bolivar University. Venezuela
- 2007** **Visiting Professor**
Cinvestav – Instituto Politécnico Nacional, Mexico.
- 1999 – 2008** **Teaching Assistant**
Simon Bolivar University, Venezuela

Courses: Linear Systems Theory, Industrial Automation, Optimal and Robust Control, Optimization, Operational Research, Machine Learning.

TEACHING AND RESEARCH SKILLS

- delivering lectures, seminars and tutorials, both in classic or virtual environments; developing and implementing new methods of teaching: Project Based Learning, E-Learning.
- ability to communicate effectively in English, French and Spanish;
- undertaking personal research projects and contributing to the institution's research profile; writing up research and preparing it for publication;
- coaching and supervising PhD students;
- representing the institution at professional conferences and seminars, and contributing to these as necessary;
- establishing collaborative links outside the university with industrial, commercial and public organizations

RESEARCH PROJECTS

- | | |
|-------------|---|
| 2018 | GPS-aided GEO augmented navigation for estimation of small water reservoirs in India Chambal Basin
Funded by ISRO, India: 20.000\$ |
| 2016 | Route and scheduling optimization for solid waste collection.
Funded by Simon Bolivar University, Venezuela. Amount of funding: 1.000\$ |
| 2015 | Batteries in Portable Electronic Devices.
Funded by University of Maryland, USA. Amount of funding: 10.000\$ |
| 2015 | Optimization of Risk Abatement Actions Selection for Project Management
Funded by Simon Bolivar University, Venezuela. Amount of funding: 1.000\$ |
| 2012 | A low-cost control system for hydraulic applications
Funded by FONACIT, Venezuela. Amount of funding: 5.000\$ |
| 2005 | Solving Controller Design Problems using Evolutionary Algorithms
Funded by Simon Bolivar University, Venezuela Amount of funding: 10.000\$ |

CONSULTING PROJECTS

- | | |
|-------------|--|
| 2019 | Predictive maintenance
JK Tyre / JK Cement - India |
|-------------|--|

- 2018** Industrial Automation
POLAR -Venezuela
- 2015** Automation of a Service Station Facility
General Electric -Venezuela
- 2013** SCADA system design for brewery plants
POLAR-Venezuela

ADMINISTRATIVE SERVICE

- 2013-2014** Head of Department
Simon Bolivar University
- 2003-2005** Career Coordinator
Simon Bolivar University

AWARDS

- 2019** **IEEE RDCAPE 2019** Best Paper Award
- 2010** **IEEE** Computational Intelligence Society Best Paper Award. Amount of award: 2000\$
- 2007** Student grant - 4th International Conference – Evolutionary Multi-Criterion Optimization – Matsuhima, Japan. Amount of award: 1000\$
- 1990** Scholarship to study in France. Amount of award: 50.000\$
